Holds
More
Collectors/
Controllers!

- This bracket series is designed to hold your collector or controller inside the cab of your survey vehicle
- You can watch the GPS data from the comfort of the cab
- Best used when your receiver is mounted on a SECO Magmount or our GPS Truck Door Mount (#5114-20-FLY)
- The suction cup mount will grip any clean glass or slick surface
- The ball-and-socket mount allows nearly unlimited range of tilt positions
- An extra two-hole ball mount is included for use in situations where permanent placement of the bracket is preferred
- Weighs 0.9 lb (0.4 kg)
